FOREWORD

Urban Local Bodies currently maintain their day-to-day accounts under Cash-based single entry system. This accounting method does not take into consideration receivables, payables, non-cash items of expenditure, provisions etc., for which the real financial picture of the Urban Local Bodies remains obscure. To remove such deficiencies, Govt. of West Bengal is keen to introduce accrual-based double entry accounting system in ULBs in consonance with the current national policy of introducing this system in the local bodies.

Kolkata Urban Services for the Poor, an important programme of the Government of West Bengal assisted by Department for International Development of the Government of United Kingdom, has taken up the task of introducing this modern accounting system in forty of the ULBs. Modern accrual based system of accounting will enable better administration and informed decision-making in the Urban Local Bodies.

The ULBs under KJSP have enthusiastically started the task of converting their accounting system from single entry case based to double entry accrual based. Already significant progress has been made by a number of Urban Local Bodies in preparation of their opening balances.

This Manual comprehensively covers all aspects of the accrual based double entry system which will help the Urban Local Bodies in switching over. This will prove useful to us not only in introduction of this system in the forty ULBs under KJSP but also in extending this system to all ULBs in the State of West Bengal.

I am glad to note that this Manual has been prepared in lines of the National Municipal Accounts Manual of Government of India with necessary customization for the State. This Manual might also prove useful to other states which will make up this task.

I trust that this Manual will be used by the official of the ULBs entrusted with this work and will make their task easier. I request them to communicate any difficulty they may have in implementing this Manual to the Change Management Unit. All are welcome to give their feedback.

PRELUDE

The Government of West Bengal has decided to introduce Accounting Reforms in its Urban Local Bodies. The Urban Local Bodies will be gradually switching over to the Accrual Based Double Entry system of Accounting. In the first phase the 40 Urban Local Bodies included in the DFID assisted Kolkata Urban Services for the Poor (KUSP) programme shall be converting to the new system. The Change Management Unit, KUSP has been entrusted with facilitating the conversion of the accounting system in the 40 ULBs. The ULBs were initially given a guideline for preparation of Opening Balances. The rest of the Accounting Manual is now complete and its being brought out for the use of the ULBs.

The Manual comprises 6 (six) parts, viz., (1) Introduction to Double Entry Accrual-based Accounting, (2) Accounting Principles, (3) Guidelines for preparation of Opening Balance Sheet, (4) Chart of Accounts, (5) Forms and Formats, and (6) Transaction Entries. A separate booklet for each of these six parts have been published. The task of implementation of the Accrual-based Double entry Accounting in the ULBs involve a number of stages, such as determination of Accounting Policies and Principles, preparation of Opening Balance Sheet, prescribing various Heads of Accounts with proper condification, prescribing formats of various MIS Reports, and the methodology of recording day-to-day financial transactions. The six parts of the Manual shall take care of these different tasks.

While preparing the Accounts Manual, the prescriptions of the National Municipal Accounts Manual published under the aegis of Ministry of Urban Development, Govt. of India, and the Comptroller & Auditor General of India, have been followed. In some cases the prescribed principles have been customized to suit the conditions of the stage. The contents of the present Accounts Manual shall henceforth be the guiding principles in the matters of the Accounting Reforms in the ULBs of West Bengal. After the publication of this Manual, one last task remains i.e. the amendment to the relevant provisions of the W.B. Municipal Act, 1993 and the W.B. Municipal (Finance and Accounting) Rules, 1999. The said task shall be taken up after the process of conversion of accounting system in the first few ULBs in successfully implemented.

I hope this Manual proves useful to all who will be using it. I also request the users of this Manual to give their feedback to the Change Management Unit, KUSP.

I take this opportunity to thank Sri Arnab Roy, the Project Director, and his team is CMU as well as all those associated with preparation of the Manual for their outstanding performance.

INTRODUCTORY NOTE

Switching over to the accrual based double entry system of accounting by Urban Local Bodies is one of the first of the Municipal Governance reforms being facilitated by the Kolkata Urban Services for the Poor programme.
